EDUCATION

G.L.A University <i>Bachelor of technology in Computer Science</i>	8.06 Aug. 2022 – April 2026
MD Jain Public School <i>XIIth</i>	93.4 Aug. 2020 – May 2021

EXPERIENCE

Job Oriented Value Added Course <i>GLA University</i> <ul style="list-style-type: none">Gained hands-on experience in coding exercises and real-world problem-solving.Developed strong analytical skills by tackling complex challenges in tech roles.	May 2024 – July 2024 Mathura, Uttar Pradesh
---	--

PROJECTS

Hotel Booking Management System <i>Express.js, MongoDB, Node.js, Javascript, React, Clerk</i> <ul style="list-style-type: none">Built a full-stack Hotel Booking web app using MERN stack, enabling room listings, user bookings, and admin dashboard features.Implemented email notifications to send instant booking confirmations using transactional email services.Integrated Clerk for seamless authentication and user management with pre-built UI components.Integrated Stripe payment gateway for secure online hotel fee transactions with real-time payment processing.	Ongoing
Learning Management System <i>Express.js, MongoDB, Node.js, Javascript, React [Github]</i> <ul style="list-style-type: none">Implemented role-based access control for Admins, Instructors, and Students, ensuring a tailored user experience.Integrated authentication and authorization mechanisms using JWT, ensuring secure access for patients and therapists.Collaborated with frontend developers to align API functionalities with user interface requirements, enhancing overall user experience.	
Blog Post <i>React, Appwrite, Git, Javascript [Github]</i> <ul style="list-style-type: none">Implemented user auth with secure signup/login functionality using Appwrite's built-in-auth services.Enabled CRUD operations for blog posts – users can create, edit, and delete posts with intuitive UI interactions.Employed clean and modular code architecture with reusable components and responsive design to ensure smooth performance across devices.Integrated React Hook Form for efficient and scalable form handling, enhancing user experience with features like input validation, error handling, and performance optimization.	
Github User Avatar Finder Web App <i>Reactjs, Github API [Github]</i> <ul style="list-style-type: none">Developed a React-based web application to fetch and display GitHub user avatars using the GitHub API.Implemented a custom debounce hook to optimize data fetching, enhancing app performance and responsiveness.	

TECHNICAL SKILLS

Languages: Java, SQL (MYSQL), Javascript, HTML/CSS
Frameworks: React, Node.js, Next.JS
Developer Tools: Git, Visual Studio, IntelliJ
Libraries: Appwrite

ACHIEVEMENTS AND HONORS

Solved 300+ problems on [Leetcode](#), [Codechef](#), [Codeforces](#) and [Hackerrank](#).
Achieved "FULL STACK WEB DEVELOPMENT 2.0" Certificate from PW SKILLS.
Achieved "Postman API Fundamentals Student Expert" Certificate from Postman.
